

## **Public Notice Mandatory Language for Monitoring and Reporting Violation Operational Evaluation Report**

The COMANCHE COUNTY WSC BEATTIE water system PWS ID TX0470028 has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Public water systems in exceedance of an operational evaluation level are required to conduct an evaluation of their source water, treatment and distribution operations and submit a report of their findings to the TCEQ.

We failed to conduct an operational evaluation and/or submit a report to the TCEQ.

This/These violation(s) occurred in the monitoring period(s) quarter four, 2024

We are taking the following actions to address this issue:

We are working with Upper Leon River Municipal Water District on making sure we are receiving and distributing quality drinking water at all times so we will not have to conduct an operational evaluation in the future. We will also conduct an operational evaluation in a timely manner when notified by the Texas Commission on Environmental Quality.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions regarding this matter, you may contact Emily Moreno at, (254) 893-3678.
